

## FTC MANAGER

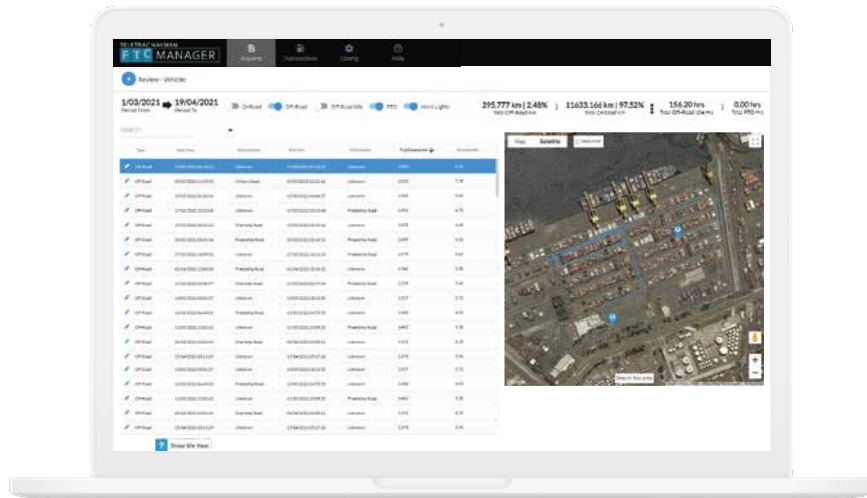

# Go Digital, with an Accurate Fuel Tax Credits Solution

Teletrac Navman's FTC Manager is the most revolutionary fuel tax credit solution that uses real-time high-definition second-by-second GPS location data from telematics installed in vehicles and equipment to calculate off-road travel and auxiliary fuel use to maximise your fuel tax rebates.

Backed by ATO's product and class rulings, FTC Manager helps your business maintain compliance with strict guidelines. With specialty industry features, like Work Lights Conex, FTC Manager helps businesses maximise their fuel tax claims, while

allowing mixed fleets to measure hours of use for auxiliary equipment. Whether you're working in construction, agriculture, forestry, mining, government or transport, FTC Manager is an entirely flexible and integrated solution built to meet the needs of those who use fuel on Australian roads.

By automating your fuel tax requirement, you can reduce administrative costs and tax risks. FTC Manager ensures you're receiving the maximum refund entitled to reinvest back into the business while staying compliant.

## FUEL TAX CREDITS & FTC MANAGER

# Why Choose an Integrated Solution?

### ATO Support

Reduce risk with a product that has ATO Product and Class Rulings

- The first GPS-based Fuel Tax Credits system in Australia to receive an ATO Product Ruling (PR 2021/2) confirming that the claim methodology is fair and reasonable
- ATO Class Ruling (CR 2021/30) confirming that FTC Manager reports can be used for record keeping

### INTEGRATED SOLUTION

High-definition GPS data for accurate fuel tax claims

- Your GPS vehicle and asset data paired with PPM Tax Group's FTC advisory services
- Part of Teletrac Navman's connected and AI-enabled fleet management solution
- Access to experienced FTC specialists with a proven track record
- Reduce risk with a solution that has ATO product and class rulings

### SECOND-BY-SECOND DATA

No algorithms, no guesswork, only data in real-time

- Designed to exclusively operate with real-time telematics data from vehicles and assets
- No algorithms to connect the dots between timed satellite updates, just real-time waypoints
- Rely on actual data from each vehicle, not average percentages across your entire fleet

### TOTAL FLEXIBILITY

Put the power of accurate fuel tax claims in your hands

- Choose the level of service you require based on your business needs
- Dedicated support team, round the clock online training and help through the process
- Ability to outsource the entire process, letting PPM Tax & Legal experts take care of it all
- Option for a complete 4-year retrospective fuel tax refund review, even if you've claimed

# How It Works

- 1 A compact, robust GPS telematics device is fitted to your asset(s)
- 2 Second-by-second data is sent in real-time to FTC Manager and processed through our dual-layered mapping system
- 3 Auxiliary equipment operating details fed into the processor for up to 6 separate items of auxiliary equipment (either directly or via PTO)
- 4 FTC Manager automatically calculates apportionment percentages and off-road operating hours for each vehicle in our GPS Data Reports
- 5 Choose to upload fuel and run FTC Claim Reports yourself or outsource your entire FTC compliance process to PPM
- 6 Receive ongoing monthly FTC rebates at optimal rates
